The purpose of this letter is to recommend TerraBurst based on the work they have done for Accredited Condominium Management Service (ACMS), and the corporations we manage. Our experience with the company has been wonderful. We've used TerraBurst for several years for a variety of sewer line replacement jobs. The most recent was a 96-unit Condominium Corporation sewer line replacement which proved to be a bit tricky. I was extremely pleased with the quality of their work and the services they provided to get this job done. We plan to work with them again in the future and recommend them without any reservation to others in need of similar intricate multi-line sewer replacement projects.

I am very happy to recommend TerraBurst to you, and trust that your experience with them will be as positive as mine. They are very experienced in what they do, offer leading-edge technology, have excellent response times, and always keep you well-informed during projects. If I can answer any additional questions about my experience as a customer of TerraBurst, please feel free to contact me at 403-258-4200 or by email at: crystal@acms.ca

Sincerely,

A handwritten signature in purple ink that reads "Crystal Deley".
